

Xuanyi Chen

PhD Student, College of life sciences

Northwest Agriculture and Forestry University

3 Taicheng Road, Yangling, China 712100

Email: chenxuanyi@nwafu.edu.cn

Personal page: xxxxxuan.github.io

Education

PhD in Genetics (Plant Molecular Genetics), Sep 2021 – Dec 2025 (expected)

College of Life Sciences, Northwest A&F University, Yangling, China

BSc in Biotechnology, Sep 2017 – Jun 2021

Innovation Experimental College, Northwest A&F University, Yangling, China

Research Experience

Graduate Research Fellow, Jun 2021 – current

College of Life Sciences, Northwest A&F University | Advisor: Dr. [Cun Wang](#)

- Investigating molecular mechanisms of sulfur deficiency response in *Arabidopsis thaliana* via brassinosteroid signaling and calcium signaling.

Undergraduate Research Assistant – Epigenome Editing, Jun 2020 – Jun 2021

College of Life Sciences, Northwest A&F University | Advisor: Dr. [Israel Ausin](#)

- Designed zinc finger-tagged SWR1 chromatin remodeling complex subunits to profile protein-DNA interactions.

Undergraduate Research Assistant - Virome Analysis, Sep 2018 – Jun 2020

College of Life Sciences, Northwest A&F University | Advisor: Dr. [Weimin Chen](#),

- Analyzed rhizosphere virome of *Robinia pseudoacacia* L. and isolated bacteriophage strains.

Undergraduate Research Assistant - Bioinformatics Training, Sep 2017 – Jun 2018

College of Life Sciences, Northwest A&F University | Advisor: Dr. [Ruolin Yang](#)

- Conducted TCGA data mining and foundational training in bioinformatics.

Funding

Undergraduate Training Program for Innovation and Entrepreneurship, 2019-2021

- Total Award: 3,500 CNY (~\$485)

Awards and Honors

First-Class Scholarship, 18,000 CNY (~\$2,493)	2023
Second-Class Scholarship, 15,000 CNY (~\$2,077)	2021, 2022, 2024
Advanced undergraduate of Technological Innovation	2021
Third-Class Scholarship, 1,000 CNY (~\$138)	2019
Second-Class Scholarship, 1,500 CNY (~\$207)	2018

Professional Services

Assistant Editor, *Stress Biology*, Jul 2023 – current
Yangling, China

Research Interests

Plant stress responses; integrative multi-omics analysis; combination of molecular biology and bioinformatics

Skills

Cell biology: Confocal microscopy, bimolecular fluorescence complementation (BiFC) assays

Molecular biology: Real-time PCR, Gel electrophoresis, Western blot analysis, EMSA, ChIP, Mutagenesis, Reporter assays (LUC), Immunoprecipitation, Molecular cloning, ³²P labeling of protein phosphorylation analysis, CRISPR-based gene editing

Plant biology: Transgenic line generation and screening (Arabidopsis and wheat), Hybridization (Arabidopsis), Element content analysis

Bioinformatics: Multi-sequence alignment and conservation analysis, RNA-seq analysis, ChIP-seq analysis, Proteomic data analysis, alternative splicing analysis, AlphaFold structure prediction and visualization

Referees

Prof. Cun Wang (cunwang@nwafu.edu.cn)

my PhD advisor and Dean of College of Life Sciences, NWAUFU

Prof. Min Jia (minjia809@nwafu.edu.cn)

my collaborator and former postdoctoral researcher in Yangnan Gu's lab at UC Berkeley, now Professor at Institute of Future Agriculture, NWAUFU
